

Heart Cake

Use a favorite recipe to prepare cake batter. Pour the batter into one round pan and one square pan. Make a platter for the cake by covering a large piece of cardboard with foil. Place the square cake on the platter with one corner facing down. Then cut the round cake in half and place the halves against the top two sides of the square cake to make a heart shape. Cover the entire cake with pink frosting and decorate it as desired.

Heart Shaped Cupcakes

Make heart shaped cupcakes and jell-o with heart shaped muffin pans. But if you don't have heart shaped pans, here is a trick!! Make your strawberry cupcake mix and pour it into cupcake liners and place in pan. Then place a marble in between the liner and pan. Perfect Hearts!! Then have the children ice up their hearts!!
