

Love Letters

Buy a box of plain unfrosted pop-tarts, then let the children ice the pop-tarts with vanilla icing. Then take a large conversation heart and place it in the top corner for a stamp. Let the children use cooking sticks or tubes of fine icing to write messages!!

Cupcake Stencils

Have children help bake cupcakes in pink paper liners and prepare white frosting. Show the class how to make pink frosting by adding red food coloring. Make paper stencils in heart and dove shapes. Let each child place a stencil on his frosted cupcake and sprinkle with red sugar crystals or powdered sugar. Carefully remove the stencil to reveal a valentine.

Friendship Pudding

Let the children assist you in making up a packet of vanilla and chocolate pudding. Show the children the two colors separately, then let them taste the puddings. Talk about the different tastes and how they both taste good. Then let the children mix the puddings, and see how they taste then. Let the children know that even though they are different they are together a delicious pudding!

Lovebugs

Make heart-shaped red jello jigglers. Turn them upside down. Cut a kiwi slice in half for wings. Add rope licorice for antennae and candy hearts for eyes.
